

Program Delivery Update

March 1, 2012

Two Important Changes to our Therapy Services Intake process

SOS Children's Village BC has implemented two new changes in regards to our intake process:

1. Effective immediately, SOS Children's Village BC has introduced an **Administrative Referral Fee of \$75.00** for all Therapy services at intake. These services include Art Therapy, Cognitive Behavioural Therapy (CBT) and Neurofeedback Therapy. The new referral fee will be put towards the administrative intake process and ensure the sustainability of the services we offer to foster families and vulnerable families in the Fraser Valley. SOS Children's Village BC will continue to provide six to twelve months of therapy services at **no session cost** to children and families in the Fraser Valley by continuing to raise funds through individual donors, associations, corporations and other fundraising vehicles.
2. Beginning in Spring 2012, SOS Children's Village BC will be offering Art Therapy, Cognitive Behavioural Therapy (CBT), and Neurofeedback Therapy as a Fee-for-Service. Sessions will be available at a subsidized rate of:

\$50/hour	Art Therapy Session
\$60/hour	Neurofeedback Session
	Cognitive Behavioural Session

With the new Fee-for-Service option, there will be a designated practitioner specifically for the Fee-for-Service clients who have the capacity to pay directly, through autism funding or extended health benefits. This will be done in order to eliminate waitlist times so that the client can receive service immediately.

Please give me a call or e-mail with any inquiries or changes on the above.

Warmest Regards,

Nicole Minions
Executive Director
